

Divide the following decimals. Write your answer up to two decimal places.

$$1. \frac{0.753}{0.045} = 16.73$$

$$2. \frac{1.247}{-0.32} = -3.90$$

$$3. \frac{-0.0385}{1.42} = -0.03$$

$$4. \frac{25.004}{5.98} = 4.18$$

$$5. \frac{9.43}{0.086} = 109.65$$

$$6. \frac{-0.00865}{-0.0742} = 0.12$$

$$7. (-12.04) \div 0.54 = -22.30$$

$$8. 0.394 \div 1.27 = 0.31$$

$$9. (-1.05) \div (-11.25) = 0.09$$

$$10. 11.12 \div (-0.194) = -57.32$$

$$11. 5.103 \div 0.0345 = 147.91$$

$$12. 17.03 \div 2.35 = 7.25$$

$$13. \begin{array}{r} -12.42 \\ -28 \overline{)347.70} \end{array}$$

$$14. \begin{array}{r} 284.75 \\ 32 \overline{)9112.00} \end{array}$$

$$15. \begin{array}{r} -16.78 \\ 87 \overline{)-1460.00} \end{array}$$

$$16. \begin{array}{r} 2.00 \\ 505 \overline{)1010.10} \end{array}$$

$$17. \begin{array}{r} 1.91 \\ 1523 \overline{)2910.00} \end{array}$$

$$18. \begin{array}{r} -33.64 \\ -295 \overline{)9923.00} \end{array}$$
